

Pre-Conference Options – July 31, 2019

WebXam Information & Test Review - \$60

10:00 am – 1:00 pm 50 participants required

This session is open to all FCS, Educ. & Training, Hospitality & Tourism teachers - you do not have to attend the full conference to attend this session.

WebXam testing of students is required by ODE as part of the CTE Program Review process. Come learn more about the WebXam testing process, how to interpret and use results, and take advantage of the opportunity to take the tests yourself to see what your students will be asked. Use this experience as a tool to guide your instructional plans and improve student learning.

Participants in the test reviews will be required to sign a nondisclosure agreement that includes policy stating that sharing of any information attained during the review is strictly prohibited.

This session is located at Eastland Career Center

Putting the Science in Family and Consumer Sciences Food Classes - \$100

9:00 am – 12:00 pm Open only to registered conference attendees

Are you intimidated by the word "science" as part of our curriculum? Do you think cooking is the only type of lab activity required in foods, nutrition, or food science classes? This is your chance to bring the foundation of our discipline back to your program. Help your students understand the science involved in cooking, nutrition, food production, etc. You will participate in hands-on activities that you can easily incorporate into your program and feel confident in your ability to guide students through the activities in your classroom.

Hyperdocs and Gamifying Your FCS Classroom - (an advanced technology session) - \$100

1:00 – 4:15 pm Open only to registered conference attendees

Come to this interactive session to learn more about moving from the "sage on the stage" to a learning coach for your students. Come with two ideas of lessons you want to create hyperdocs for and actually begin creation of a hyperdoc while at conference. Want to take the next step? Learn how to gamify your classroom to energize student learning. Get students involved in their learning and challenge them to reach new learning goals.
